EOI Applications Analysis Report

About Report and General Guide to interpret the report

This report is based on the past 2 year valid EOI data from Australia SkillsSelect System.

To correctly interpret the report, understand the context of these statuses and some general guidelines.

- **Month Submitted** - the month the EOI was last submitted in SkillSelect.
- **Occupation Groups** - The Australian and New Zealand Standard Classification of Occupations (ANZSCO) unit group. The unit group is denoted by a 4-digit code and description.
- **Occupations** - The occupation is denoted by a 6-digit code and description. Occupation is the most detailed level of classification. Invitations are issued via SkillSelect at the 6-digit code.
- **Visa Type** - The visa subclass/es selected within the EOI.

EOI Status: An EOI can have a status applied, the following statuses are available in this report:

- **Submitted** - An EOI that meets all requirements for all selected visa subclasses and has all fields completed can be submitted. Once submitted, points are attributed to the EOI based on the information provided. Submitted EOIs are eligible for selection in an invitation round, by a State and Territory government agency or Austrade, depending on the visa subclass(es) selected.
- **Hold** - An intending migrant can suspend their EOI. Suspending an EOI means the EOI is not visible to State and Territory government agencies or Austrade and cannot be invited in an invitation round.
- **Invited** - An invitation to apply for a visa has been issued.
- **Lodged** - A visa application has been lodged using an invitation to apply for a visa

Points - The total points allocated, based on the information entered into an EOI. For reporting of "Invited' and 'Lodged' status, the point score may not be a reflection of the score an EOI was invited against. This is because SkillSelect allows the visa score to change whilst in invited status. Clients are notified when there is a change to their EOI points.

Note: EOIs counts which are less than 20 are considered as 9

Visa Categories Considered in the Report

189PTS Points-Tested Stream

190SAS Skilled Australian Sponsored

491FSR Family Sponsored – Regional

491SNR State or Territory Nominated – Regional

Occupation Considered in this Report for Analysis

Number of EOIs at or Above Score Thresholds

The below **Area Chart** displays the total number of **EOIs (Expressions of Interest)** that have scores at or above the points indicated on the **X-axis**. **For example**, if you see a value of 200 against the point 110, it means there are 200 EOIs with scores of 110 or higher. This helps you understand your position within the pool of EOIs.
